

PROPOSAL NAME

Streamlined AIP Timing Process

PROPOSAL CATEGORY

Process

ABSTRACT

This AIP seeks to propose a specific timeline for when an AIP goes from draft to admin review to live voting.

The AIP process outlined in AIP-1 has specifications for the process as well as timelines in some - but not all - steps of the process.

Currently, an AIP idea goes through a mandatory seven (7) day feedback window before it is eligible to go to draft. After the draft phase, it goes into admin review, then goes up to vote as a live AIP.

The primary issue is that the community has no insight as to the period between the admin review and the live phases. This creates a lot of uncertainty and angst in the community as there is no indication as to when an AIP will go live for voting.

BENEFIT TO APECOIN ECOSYSTEM

Creating a timeline for an AIP going from admin review to live voting will create much-needed transparency and meet the expectations of those who have taken the time to create AIPs.

STEPS TO IMPLEMENT & TIMELINE

1. Mandate a 7-day turnaround for an AIP to go from Draft (phase 2) to Admin Review (phase 6).
2. Mandate a 7-day turnaround for an AIP to go from Admin Review (phase 6) to Live voting (phase 7) after all discussions with the author have been concluded.
3. Mandate a 7-day turnaround time for responses from authors who have an AIP in Draft phase. If there is no response or resolution within that time frame, then the AIP is withdrawn.

This proposal should go into effect immediately upon the passing of this AIP.
