

I'm not sure if this goes here, if it doesn't I'm sorry.

Anyways, I wanted to make a post regarding the secret network telegram stickers. I'm sorry but they're not good quality. They're low effort, just an image with the secret logo on top.

I know secret network is a movement but its also a brand and for a brand to work every part of the whole must be perfect. The website, the mobile wallet and other things people might overlook. Such as the telegram stickers. I started a sticker contest and I'm amazed at the quality. Zam in particular has offered his services for this task. I am sure it'd be reasonably priced. What do you guys think?
