

TL;DR of [Lido CSM IRL Workshop Proposal in Davao Philippines](#)

The Davao DeFi Community

proposes a 4-hour in-person workshop

focused on introducing and training participants in the Lido Community Staking Module (CSM)

. Scheduled for February 08, 2024

, in Davao City, Philippines

, the event targets 30 attendees from local tech communities.

Objectives:

1. Educate participants about Lido CSM, emphasizing its role in Ethereum decentralization.
2. Enable hands-on training for setting up CSM validators.
3. Promote Lido's mission of decentralizing Ethereum by onboarding local node operators.
4. Foster collaboration among tech enthusiasts and blockchain innovators.

Agenda Highlights:

- Welcome & Introduction

: Overview of Lido's mission and CSM's significance.

- Deep Dive

: Technical exploration of CSM architecture, bonding mechanisms, and validator setup.

- Hands-On Session

: Step-by-step guide to setting up CSM validators on the testnet.

- Best Practices

: Tips on maximizing rewards and ensuring validator security.

- Networking Opportunities

: Interaction among participants to build local blockchain networks.

Budget:

- Total estimated cost: \$995.50

(includes venue, food, materials, and contingency funds).

Expected Outcomes:

- Enhanced understanding of Lido CSM among local tech communities.
- Onboarding of new node operators to Lido's ecosystem.
- Strengthened community engagement and collaboration.

This workshop supports Lido DAO's mission

of democratizing Ethereum staking while empowering local blockchain communities in the Philippines. For details, contact [\[\[email protected\]\]](#)
