Contribution guidelines

We welcome submissions of guides and tutorials that cover new types of integrations! Following these guidelines will help us maintain consistency,

- Include all the sections present in this [sample guide](#)
- Create a folder with one markdown file using the same name
- Append a number if a guide needs to be split into multiple parts
- Use [markdownlint](#)
- for ensuring a consistent style in the documents. Rules are found in `markdownlint.json`
- root folder.
- Use [Markdown+Math](#)
- for Math notations.
