

Hi everybody, I'm [Chronarc](#)!

Starting today I am going to use this thread to talk about my ideas thoughts and choices for season 7. In general I will:

- Voting with Intention:

I will prioritize fairness and proposals that align with the community's long-term health and sustainability to the best of my knowledge, even if they may be against the grain.

- Supporting Public Goods:

Retroactive Public Goods Funding embodies Optimism's mission to reward impactful contributions. This tool will remain a central focus of my decision-making.

- Embracing Governance:

The Working Constitution provides a flexible framework for adaptability. Any time I see the chance to improve the distribution of governance in a more efficient or productive manner, you can count on me.

Talk to you soon!
