

Proposals submitted to the AIP Ideas section don't need to be presented as fully finalized AIP Drafts, they may lack some details in the beginning. It's important to use the mandatory 7-day discussion period for AIPs to gather feedback and engage with the community, not only on this forum, but also across other community discussion platforms.

Please use the AIP Draft Template below.

The Facilitator team will assist and guide you through the phases of the AIP process. If necessary, you can extend the discussion period for another 7 days by updating the [@Facilitators](#).

PROPOSAL NAME:

Create a Special Council Marker for AIPs

PROPOSAL CATEGORY:

Process

ABSTRACT:

This proposal aims to create a marker designated for AIPs created by the ApeCoin DAO Special Council as individuals and as a group. The goal of the marker is to provide a platform for the standing Special Council members if and when they create AIPs regarding the ecosystem in any way such as changes/improvements to the DAO or integrations/opportunities for the DAO. Special Council can write AIPs and act on feedback from the community, and as the community, we want to give them the toolset to act on that feedback without it needing to be us acting for them.

Powerful for the Special Council to highlight their contributions and for the community to observe this more openly and measurably.

BENEFIT TO APECOIN ECOSYSTEM:

- Special Council AIPs are highlighted and brought up easier and more accessible to users.
- Special Council AIPs provide a platform that can and should stand out from the other AIPs. Not for being better, but for being brought up by our elected stewards of the foundation.
- The DAO will have a measurable form on which to judge our Special Council through written AIPs, successful and failures, execution, and even quantity so at then end, we, as a community, have a physical thing on which to judge, criticize, or praise our SC members and lead us to make an educated decision when voting begins again.

KEY TERMS:

Special Council Marker would be a Tag automatically paired to any AIP written by any standing SC member(s).

PLATFORMS & TECHNOLOGIES:

forum.apecoin.com and [Snapshot](#) will have a marker/tag to denote the SC-written AIPs either in the form AIP-3XX (SC) or SC/AIP-XX of some form.

STEPS TO IMPLEMENT & TIMELINE:

Standing SC members will be given a Special Council role on the forum and given access to a SC Marker to create AIPs.
