

The following post is the Nomination Announcement for the ApeCoin Governance Working Group Steward positions for the term beginning in January 2024. This announcement marks the start of the Governance Working Group Steward nomination process. Per [AIP-239](#), this post will cover everything you need to know about:

- General elections housekeeping (e.g. where things will live on Discourse)
- Details on the nomination and election process
- Timeline for the nomination and election process
- The application process and how to apply to become a Governance Working Group Steward

Housekeeping

A new category has been added to Discourse called Working Group Steward Elections. This is where election resources will live. Within this category, there are four sub-categories:

- [Announcements](#)
 - This contains high-level nomination and election announcements for the election cycle.

The Nomination and Elections Process

The nomination process for Stewards of the Governance Working Group was established by [AIP-239](#), which mimics the same process as the Special Council outlined in [AIP-137](#). The following outlines a process for community members to

participate in elections. The nomination process is as follows:

- Phase 1: Starting Wednesday, November 1, applicants are invited to put themselves forward for Steward of the Governance Working Group. The Nomination Announcement (this post) facilitates the submission of applications via a Google Form. Applicants should submit their KYC information, relevant documents, and nomination profile drafts.
- Phase 2: The community discusses the nomination profile of those who pass the KYC and background verification process.
- Phase 3: If there are more than 5 nominees, there will be a 6-day vote on Snapshot (consistent with the usual Thursday to Wednesday cadence for AIP votes). The top 5 nominees from the community vote (or all nominees if there are 5 or fewer) advance to the election process.

The election process for Stewards of the Governance Working Group was established by [AIP-239](#), which mimics the same process as the Special Council outlined in [AIP-138](#). The process helps to ensure that governance runs uninterrupted and allows talented, passionate, and capable members of the community to serve in the daily operations of the DAO. The election will run on Snapshot, consistent with the usual Thursday to Wednesday life cycle for AIP votes. This cycle will elect 1 candidate as Stewards to the Governance Working Group.
