

Does anyone know who to contact at aave to see what happened to my conversion of aave (Lend) to aave?

On 1/19/21 I sent 50 aave (Lend) to aaves smart contract and they were converted to aave and sent to my Atomic wallet.

Hash

0xc243f02a1a5b1e29bf7b80a7be6c47a54787fda06ae5e7ac408e495b85eb58f9

So I sent the remaining 409.488 to the same address and it has over 24000 confirmations but I still have not received them in my wallet!

Hash

0x2248bc29b0fd885cb5b8fdbcb5708e8376cb540e7f93d3f832c91c291fd53f9b0

Any help would be appreciated.

Thanks
