## **PROPOSAL DESCRIPTION:**

After recently funding substantial grants and taking into consideration all other liabilities accrued, (plus ongoing monthly operating costs) the treasury needs time to recover; refilling via monthly native token unlocks, and potentially inflows generated from apechain release.

This AIP proposes that any financial proposal involving spending or allocating more than USD seven hundred and fifty thousand dollars (\$750,000) of DAO resources be rejected from our forum for a period of one year.

Working group budgets will be exempt.

## **BENEFIT TO APECOIN ECOSYSTEM:**

Mitigating financial risk by ensuring substantial allocations are not made which may potentially be unsustainable in the short-term, thereby strengthening the prospect of long-term sustainability.

## **DEFINITIONS:**

Financial Proposal:

Any ApeCoin DAO AIP requesting the allocation or spending of funds exceeding \$750,000 US dollars.

## **STEPS TO IMPLEMENT:**

Proposals requesting more than \$750,000 US dollars would not be permitted on the forum for a period of one year starting 1st of January 2025 and ending 31st December 2025.

Proposals with funding requests designated in \$APE (or any other non-USD denomination), a USD-value determination must be made during the forum submission period.

## **REPORTING EXPECTATIONS:**

The expectation is that this proposal would be implemented by the DAO's administrative team. The community should regularly review the impact of this proposal. If accepted, the administration and the community should review the impact of the updates after the 3-month period for conflict ends - particularly if regular revenues are realised from apechain release.

## **OVERALL COST:**

Total amount requested from the ApeCoin Ecosystem Fund = \$0
