

Hi all, I'm doing a little survey to research what proportions of users use different type of models, I would be extremely grateful if you could take 2 minutes to fill it out:

Numerai model research

A quick form to research what proportion of users use each different type of model

The results will be posted in a separate forum post along with a csv for anyone interested.

I will hopefully be doing a few of these surveys so if you have any ideas for data you would like to be collected let me know and I will make sure to include it!
