

# Relayer

[## Introduction](#) In IBC, blockchains do not directly pass messages to each other over the network. This is where relayer comes in. [Relayer Guide](#) The following information is based off of this guide created by Clemens from CryptoCrew. [## IBC Channels for Osmosis](#) [## IBC Relayer List](#) | [Relayer](#) | [Contact](#) | [How to Support](#) | [Support for new relayers](#) | [Chains Relaying with Osmosis](#) [Using TMKMS](#) [Next Introduction](#)
