

We're looking for someone to join our team and lead our marketing/community strategy. SCRT Labs have gone too long without an in-house marketing lead, to properly help us push the work that we do on an infrastructure level and more importantly - on a product level.

To us, this role has an important function in the network as a whole, since SCRT Labs develop products that often turn into cornerstones in our network, and if not properly communicated to the masses, our products lose ground and in turn - the network does.
