

Hello dYdX community,

We're thrilled to introduce ourselves - we are Forest Staking, we are an enterprise grade staking solutions company. Our globally distributed team consists of military and civilian trained information systems specialists.

We are the largest validator on the Casper network and one of the best performing on Aptos. we also have nodes on Axelar, Tenet, Zetachain and Haqq. Our systems are powered using renewable energy sources, are located in various locations around the world and are monitored around the clock.

We provide specialist non custodial staking services for enterprise and retail clients whilst investing in rewilding our planet to help reverse centuries of ecological damage. We are committed to fostering decentralization and ensuring the highest level of security, availability, and performance within the dYdX ecosystem.

Our mission at Forest Staking is to provide a sustainable, secure, and hassle-free staking experience for all dYdX users. We are driven by the vision of creating a greener and more accessible blockchain future, which is why we have built our staking services with an emphasis on environmental sustainability and community inclusivity.

Joining the dYdX community as a validator is an exciting step for us, and we're looking forward to a long and fruitful relationship with all of you.

Thank you,

Forest Staking Team
