

Grant Title:

CoW AMM Deployer (Retrospective)

Author:

[@bleu @yvesfracari](#)

About You:

[bleu

](<https://github.com/bleu-studio>) collaborates with companies and DAOs as a web3 technology and user experience partner. We're passionate about bridging the experience gap we see in blockchain and web3.

Our team has developed applications that give more visibility and make it easier to interact with Balancer's smart contracts.

We've worked on a previous grant for CoW, [Safe App for Milkman Orders](#), which enabled us to dip our toes in the protocol. We feel ready to take on the challenge to work with Composable CoW and we're excited about exploring and innovating in CoW. We're also working in [StopLoss](#)

Additional Links:

As this is a retrospective grant, the Safe App was already launched and it is lived [here](#). The API to track Composable Cow Order creation events, and CoW AMM decoding parameters is available [here](#). All app code is open source [here](#) and the API [here](#).

Grant Category:

User interface and user experience (UI/UX)

Grant Description:

Create a Safe App to interact with CoW AMM Module contracts to:

- Create new CoW AMMs from Safe Wallets;
- Stop CoW AMMs;
- Edit current CoW AMM;
- Check running CoW AMM info.

Grant Goals and Impact:

Our goal is to attract volume to CoW AMMs by simplifying the setup process through an intuitive UI. By enhancing user experience, we aim to foster greater adoption and utilization of CoW AMMs.

Milestones:

1. "Create new AMM" page [COMPLETED]
- ;
1. Ponder API to track Composable Cow Order creation events and decode AMM parameters [COMPLETED]
- ;
1. "AMM Manager" page with stop and edit LP position actions [COMPLETED]
- ;
1. App rebranding to this [theme](#) [COMPLETED];
2. [Documentation](#) about how to use the app [COMPLETED].

Grant Timeline

- :
- 2 weeks. [COMPLETED]

Funding Request:

\$6000 xDAI paid after Grants Committee snapshot voting and 6000 COW vested over 1 year.

Budget Breakdown:

The budget includes the hourly rates of a developer during the execution and project manager on a need-basis. It also includes the diluted maintenance costs for 1 year. It also covers the expenses incurred during any eventual deployments.

Gnosis Chain Address (to receive the grant):

0x554866e3654E8485928334e7F91B5AfC37D18e04

Other Information:

- Thanks to the Grants Committee, especially [@Master_CoW](#) and [@mfw78](#), for all the support on development and trust in us to deliver the project. We're open to feedback from the CoWmmunity and are attentive to feedback from users on Discord and will work ASAP to resolve them.
- We're also happy to keep working on it and extend this grant if the committee identifies other opportunities for improvement.

Terms and Conditions:

By submitting this grant application, I acknowledge and agree to be bound by the CoW DAO Participation Agreement and the CoW Grant Terms and Conditions.
