

Hello @optimism community

For those who don't know me, I'm Lili, some friends call me Lili, others Lilian and some few @piurana_inblock

. I grew up in a small town in the north of Peru called Piura and for as long as I can remember, I have been involved in extracurricular activities since I was in school, which has awakened in me a great interest in social causes and community support.

Since I moved to Lima for work have been seeing the work of this magical girls in technology @womenbiz

, I have felt great encouragement for them to trust me as a #delegate

.

Some relevant points about me in this web3 world:

I won a hackathon (1st place) organized by AndinoDao in Lima, 2022

I was an intern at BuildersWeek in Lisbon, Portugal thanks to Talent Protocol.

I became an ambassador for Talent Protocol after that.

I participated in Builders in #EthArgentina

in Buenos Aires,

, 2023.

I just won a hackathon (1st place) at #EthSamba

in Rio,

and we go for more...

The main reasons why I am encouraged to apply as a delegate of @Optimism are:

Increase the number of participation of women (and if they are Latinas, much better) in hackathons around the world

Give visibility to the work (art, theater, cooking, finance, design, etc.) of more Latin women with unfavorable growth options.

Create spaces for collaboration between people who want to support and invest in optimistic projects led by women and girls who are developing them.

Promote blockchain learning for women through the use of tools that Optimism offers us to develop.

Share material in Spanish and organize calls to practice English thanks to our English Networking Club (ENC).

Give feedback to projects developed in any blockchain, always from the user and Product side, which is my area of expertise.

I will be able to achieve this and more thanks to your support and your trust in me as your delegate.

If you have ideas on how to collaborate, you can send me a DM to me too.
