

Introducing Ape Spirits, a craft distillery cofounded by Captain Fuego, an OG Bored Ape Yacht Club member.

We produce the finest Ape branded spirits and call them Twisted Ape. We also mix some awesome cocktails in and put them in cans called Ape Juice. Try some I guarantee you'll love it. Both brands include Apes and Mutants on the labels leveraging our IP.

Ape Spirits was born in late 2022, during the peak bear market, from an idea to create something cool for the Ape community. We wanted to build something that all Apes would love while at the same time offering some cool utility to our Apes and Mutants.

We started off with the Twisted Ape Treasure Chest and a delicious Pineapple Passion flavored vodka. Going forward we have plans to drop a tequila, a rum, and possibly even a bourbon. Our Twisted Ape Spirits Club members get a bottle of each included in their membership.

Now that Thank Ape has selected Ape Spirits to join the Built By ApeCoin program, we will be able to bring these new products to market even sooner, and maybe even offer more cool benefits to the community.

We will also be putting a rush on the release of Ape Juice. We can't wait to see the entire community enjoying our refreshing cocktails and leveraging their Ape IP to create some cool products.
