

These bi-weekly facilitated sessions are open to all delegates and teams/individuals contributing to the Arbitrum ecosystem. Hosted workshops will use design thinking to understand the problems we are facing, align our conversations, and find better solutions.

If you have topics that need to be discussed, pop them in the comments below or add them as we get started.

Note, these meetings are less about information sharing - and more about issue & next step identification.

This will be the area all recording will go to for our bi-weekly grants and governance workshop
