

Hello dYdX Community!

The DGP recently tested an “AMA” style call on [Twitter Spaces](#) as a way to converse more intimately, not only between the broader community, but also between grantors and grantees.

Background

Our first call was a success with nearly 100 people tuning in. The DGP grantors interviewed two current grantees ([dYdX Merch](#) and [Chaos Labs](#)), gathered feedback from the community, and discussed general updates.

The call is hosted by DGP community and strategic grantors and follows this agenda:

- Introduction to call & agenda
- General updates
- AMA with grantee #1
- AMA with grantee #2

(or other format)

- Open Q&A

Purpose

This post is to create an active channel for the continuation and coordination of these events. We encourage grantors, grantees (past and present), and community members to ask questions, propose ideas, and more. We hope this will be an active topic that will encourage more participation in the monthly AMAs.

Thoughts, Questions, & Ideas

- Are there other styles of conversation that would prove effective in addition to the grantee AMA?
- What are some key discussion topics for the December/January call?
- What are some grants or RFPs that the community would like to see?

Looking forward to a dynamic conversation here. We will also post updates about the next call coming soon!
