

I realised we have 3 names we use in the community for the same thing.

I believe simplicity is key.

Discussion

which when you click goes to the forum.apecoin.com

which some people refer to as Discourse

which is just the underlying tech of the forum.

We don't refer to a website as AWS or the domain hosting provider. Why call the forum discourse? Also I personally think discourse sounds too much like Discord. Anyhow good to get community feedback.

What should be the naming standard for Discussion / Forum / Discourse?

- Discussion
- Forum
- Discourse
