

Container diagram for optimism

We have integrated with the Optimism OP stack. Utilizing theBatcher for submissions to NEAR and theproposer for submitting NEAR commitment data to Ethereum.

The folder [./op-stack](#) in our repo contains a few projects:

- optimism
- : Sequencer, Batcher, Proposer, etc. This is the rollup node.
- da-rpc-go
- : Formerlyda-rpc
- . This is the go package for integrating withda-rpc-sys
- .
