

Hello Folks,

First it took a few attempts until I could swap supplies to 10000 USDT, but it did work.

Then for one hour+ I've been trying to repay borrowed amounts with available those 10000 USDT.

I've tried 10+ times all ending with the "waiting hourglass" pending eternally on Aave side.

Then I've been liquidated while Video recording it on phone.

After the liquidation, and only after the liquidation, repay worked! immediately!

It very much looks like my account was blocked for Repaying so that I could feed the liquidators!

Thanks for getting back to me, I will provide the video of the liquidation upon request.

Below images of what I say, I'm not allowed to post more than 3 images.
