

# I. ABOUT PRIMEV

PrimeV is a no-code, custom conversational AI chatbot builder that empowers businesses to engage with their Facebook Messenger visitors/users through natural language conversations. Leveraging advanced AI and machine learning algorithms, it adeptly interprets user queries and executes tasks, including sales, customer care, and information delivery. In the corporate landscape, chatbots have emerged as invaluable tools for enhancing customer support, boosting user engagement, and streamlining repetitive tasks. By harnessing a tailored chatbot solution like PrimeV, companies can craft personalized, branded experiences for their users, tailor the chatbot's responses to specific use cases, and seamlessly integrate it with their existing systems and processes. With PrimeV's robust external knowledge base support, businesses can confidently entrust their chatbot needs to this comprehensive platform.
