

Hello everyone,

We're happy to share that Lampros DAO (formerly "Lampros Labs DAO") will be holding open office hours at Chora Club! Whether you're new to Arbitrum DAO or have been around for a while, you're welcome to book a time with us to ask questions, learn about our approach, or get our thoughts on recent proposals. This is also a great chance for new users to understand how delegation works and to consider choosing Lampros DAO as their delegate if our values and approach align with yours.

Our office hours are open daily from 10 AM UTC to 12 PM UTC. During these times, one of our team members—Chain_L (@Blueweb), @Euphoria, or Hirangi(@Nyx)—will be available to discuss governance topics, share insights on our voting choices, and gather your feedback. If you've already delegated to us, this is an opportunity to share input on the issues you'd like us to engage in and discuss our voting rationale.

You can book your slot [here](#) on Chora Club to connect with us.

About Chora Club:

[Chora Club](#) is a platform that helps DAO members connect directly with delegates and governance specialists through one-on-one sessions. We chose Chora Club because it makes it easy for community members to reach out, ask questions, and consider Lampros DAO as their delegate.

Feel free to book a slot - we're here to make your Arbitrum DAO journey more informed, answer your questions, and show how Lampros DAO can be a strong fit for your delegation needs.

Looking forward to connecting,

Lampros DAO Governance Team
