

After today's leadership call, my leadership role was removed from the Discord server.

As I had indicated in last week's call, if leadership decides to remove this due to me moving my product to JUNO, I will respect that. Next time, please inform people in advance so we can take the opportunity to express our gratitude and say our goodbyes while on the call, instead of a forum post

To all who have been on the leadership call over the past 18 months, THANK YOU! It has been a pleasure to work closely with you and exchange, ideate, and execute ideas on how to push Secret Network further!

As I said before, I will stay involved in the network, as I believe privacy should be the default on blockchains, and Secret Network is one of the very few who fight for that cause. No longer having access to the conversations of the leadership channels will make that involvement harder to be heard, so please, reach out if you want to share thoughts or hear mine on any particular topic. I will keep helping this network within the capacity that is left.

Thank you for everything, and I hope that one day in the future we may work closely again!

Yours sincerely

Stefan
