

Unbond Tokens

There currently is in place a 21 days unbonding rule, during which no rewards are handed out. If for any reason the validator misbehaves, or you just want to unbond a certain amount of tokens, use this following command.

...

Copy `secretcli tx staking unbond \ 10 uscr \ --from= \ --chain-id=`

...

The unbonding will be automatically completed when the unbonding period has passed.
