Cheers, and remember to have fun!

Author Description (mandatory if the AIP is requesting funds) | A brief background of yourself

A rando Ape taking initiative on something that seems to have a high degree of interest and agreement, incorporating suggestions from the ApeCoin Forum during the Idea and Draft phases thereby making this a collective effort.

Motivation | A statement on why the APE Community should implement the proposal.

This hadn't been discussed much or formally approved and a lot of token holders seem concerned about it so whatever threshold we adopt it "should" be by conscious vote instead of just living with the current default 50% +1 pass threshold, at least when it applies to fundamental changes to the DAO.

Rationale | An explanation of how the proposal aligns with the APE Community's mission and guiding values.

A super majority is by definition super!

We don't yet have an approved Mission, and presumably the \$APE Community's values include not making major, fundamental, highly impactful changes without at least consciously ratifying the default 50%+1 threshold or raising it.
