

Here is a interactive spreadsheet for the community that contains various stats about the all the AIPs that have been put up to vote. There is still plenty of work for me to do and add, but it seems that the community is looking for something current and up to date. I believe this should hold everyone over until I'm finished.

Should you notice any issue or have any questions please either comment below or message me privately here or on discord.

Please note that this is just data that I have copied over from the document I am working on as the file is way to big to be hosted on Google Sheets or even Microsoft 365. As I make substantive changes I will add it to this document.
