

If you wish to submit feedback to the dYdX Grants program, please use the form found here:

<https://www.dydxgrants.com/feedback>

The feedback is fully anonymous.

All feedback received will be stored in a database that we can make available at request, and are sharing publicly through the dashboard at the same link. The dashboard is uploaded every 60 seconds. Admittedly this is not 100% censorship resistant, but we've adopted this process for now while we work on something better.

We appreciate all comments and feedback to improve the program. At the same time, we please ask all submissions to follow honest, straightforward responses. Spamming the feedback form will dilute the impact of this effort.

Thanks for sharing thoughts on the program!
