

I'm at the point where i am running `launch_network.bash` and I encountered two issues

When it is deploying the contracts to the test net I get the following issues. First coin-mixer won't deploy.

Starting coin-mixer app... Error: Invalid JSON RPC response: "" at Object.InvalidResponse (/home/node/enigma-contract/node\_modules/web3-core-helpers/src/errors.js:42:16) at XMLHttpRequest.request.onreadystatechange (/home/node/enigma-contract/node\_modules/web3-providers-http/src/index.js:75:32) at XMLHttpRequestEventTarget.dispatchEvent (/home/node/enigma-contract/node\_modules/xhr2-cookies/dist/xml-http-request-event-target.js:34:22) at XMLHttpRequest.\_setReadyState (/home/node/enigma-contract/node\_modules/xhr2-cookies/dist/xml-http-request.js:208:14) at XMLHttpRequest.\_onHttpRequestError (/home/node/enigma-contract/node\_modules/xhr2-cookies/dist/xml-http-request.js:349:14) at ClientRequest. (/home/node/enigma-contract/node\_modules/xhr2-cookies/dist/xml-http-request.js:252:61) at ClientRequest.emit (events.js:182:13) at Socket.socketErrorListener (\_http\_client.js:391:9) at Socket.emit (events.js:182:13) at emitErrorNT (internal/streams/destroy.js:82:8) at emitErrorAndCloseNT (internal/streams/destroy.js:50:3) at process.\_tickCallback (internal/process/next\_tick.js:63:19) The second issue is the following where Surface starting.

Starting Surface... enigma\_surface\_1: Waiting for enigma\_core\_1... enigma\_surface\_1: Waiting for enigma\_core\_1... ERROR: An HTTP request took too long to complete. Retry with --verbose to obtain debug information. If you encounter this issue regularly because of slow network conditions, consider setting COMPOSE\_HTTP\_TIMEOUT to a higher value (current value: 60). enigma\_surface\_1: Waiting for enigma\_core\_1... enigma\_surface\_1: Waiting for enigma\_core\_1... enigma\_surface\_1: Waiting for enigma\_core\_1... enigma\_surface\_1: Waiting for enigma\_core\_1...
