

As established in [MIP104: Stability Scope Bounded Mutable Alignment Artifact](#), Legacy Legal Recourse Assets should be offboarded prior to the launch of NewChain. As such, we are requesting community polls to reduce the debt ceiling to zero for Real-World Asset vaults ConsolFreight (RWA-003) and Fortunafi (RWA-005).

Similarly, we are including a [DAO Resolution](#) that will instruct the RWA Foundation to terminate future purchases in HVB's RWA Master Participation Trust and return excess available cash to the DAO. Please note, according to the Master Participation Agreement, the termination of future purchases requires 90 days prior written notice.
