Nomination Statement

I have been an Ape for a year and believe in making ApeCoin a vital part of the Overall MFT ecosystem.

Motivation

Leverage my skills in tech & entertainment with my crypto & NFT experience to ensure the growth and prosperity of all members across the world.

Rationale

Involved in consulting for various Defi & NFT projects - also co founder of NFTV Network with fellow Ape Greg Cipes

Specifications

Consulted for several Defi & NFT Projects & DAOs on ETH & Binance Smart Chain including an index fund, an NFT marketplace, liquidity mining & staking & DAO voting. We would like to make ApeCoin the leader in funding awareness and entertainment projects to increase the Ape Brand globally and in the ecosystem with innovative tech & ideas.

Concluding Statement

I believe in the project and willing to fight for the DAO in all trouble we may face from a legal standpoint. I believe in crypto and the future of decentralized finance lead by DAOs. It would be an honor to dedicate my time to this cause and look forward to working to bring the vision to reality.
