

Collecting Liquidity Data

The SDK includes several functions that simplify gathering liquidity-depth data.

To Get Liquidity Depth Data

1. Initialize the SDK with the [Constructor](#)
2. .
3. Sync strategy data by calling [startDataSync](#)
4. .
5. Call the relevant liquidity data function:
6.
 - [getRateLiquidityDepthByPair](#)
7.
 - [getMinRateByPair](#)
8.
 - [getMaxRateByPair](#)
9. *
- 10.
