

Aligned Delegate Compensation for May 2023

This forum post is the official record of Aligned Delegate compensation for May 2023. This month contains a one-off distribution following the passage of MIP102c2-SP7. Please see [this post](#) for further details.

May 2023 has two instances of payments:

1. The one-off payments based on ranking at the end of the voting for MIP102c2-SP7 per the Governance Scope.
2. Payments for May based on the Election of Prime Delegates at the end of voting for MIP102c2-SP7 as per the Atlas and Governance Scope.

One-off payments based on ranking at the end of the voting for MIP102c2-SP7 per the Governance Scope

These payments include some ADs that have now been derecognized.

9.92

This comes to a total of 277.76 MKR

.

Feedblack Loops and mhonkasalo & teemulau would have qualified as Reserve Delegates for this payment, however their participation metrics were below the level to qualify for compensation. Consequently, Flip Flop Flap Delegate and Bandhar moved up to Reserve Delegate slots, per The Atlas.

May 2023 Payments - AD Buffer Filling

AD Buffers have now been approved. Since this is the first month after AD Buffers were introduced, any payments owed will be used to fill AD Buffers. The maximum size of an AD Buffer is the equivalent of one month's AD compensation - for PDs it is 29.76 MKR and for RDs it is 9.92 MKR. Note that for now, AD Buffers are conceptual and will be calculated off-chain. MKR in an AD Buffer will remain within the PauseProxy.

Prime Delegate slots were decided at the moment that MIP102c2-SP7 voting ended per the [Governance Scope](#).

- ADs that were only active for part of the month have been credited with an amount pro-rated to the number of days they were active.
- Per the Atlas, RD slots are calculated in real time.
- For those ADs who became RDs after the poll closed, their pay entitlement for May has been pro-rated for the time they were an RD.
- Similarly, if an RD dropped out of the top 14, their pay was pro-rated for the time they were within the top 14.

In this period, the PDs remained unchanged. Despite two RDs receiving more delegated MKR than the 7th-ranked PD before month's end, they did not double the MKR delegation of the lowest-ranked PD, hence failing to qualify as a PD this month.
