

CCIP Supported Networks

Supported tokens and configurations vary from one network to another and might differ from one version to another. Check the latest supported tokens and the latest configuration for the specific version of CCIP that you use:

- Mainnets:* [v1.2.0](#)
- [v1.0.0 \(Deprecated\)](#)
- Testnets:* [v1.2.0](#)

To learn about tokens, token pools, and the token onboarding process, see the [CCIP Architecture](#) page.
