Nomination Statement

Concise statement on why you are running for the Special Council

I want to be that diversity that DAO don't have yet. A skilled member with many backgrounds and different experiences that speak many languages and align with mindset of talents plus investors in the same time. Someone who can much a development opportunity for a talent to the DAO expansion, also having in mind how it will benefit the shareholders/token owners. I speak 4 languages, have many tech & security certification, owned 2 companies, worked at Apple Inc for 5 years at many store and corporate positions. Worked hard and lived in many places in the world embracing the culture : from Asia to Europe to America. I love to give people the opportunities and elevate good causes.

Motivation

Details on your motivation for becoming an ApeCoin DAO Special Council member

I see the opportunities to expand DAO influence beyond Twitter WEB3. Love to match opportunities to possibilities & funding. I understand & certified in many areas that can help DAO to implement execution of the operations. Going through different phases of my life & supporting startups/ having my own company I understand the struggle of the startups or established brands & companies to get out word out there as well as company direction and tech/execution hardware set up. I understand international barriers. I align both with talents that just starting and have potential as well as mindset of investors.

Rationale

Share relevant experience and skills that will bring value to the ApeCoin community

Company owner, medicine & pharmacy, finance, the WEB3 writer, Apple Inc Genius bar, Apple inc corporate positions, fraud prevention, military studies, Apple University, Diplomatic relationship & languages studies, apple developer, 3d designer, VR builder, real estate & design, ex security clearance level red, node management, Joint Venture set up/tech support/pre-sale/escalations/fraud escalations, Apple product launch set up team, International tech & product support, Microsoft & apple certified, OSHA, Volunteer & employee at Non profit organisations, part of Woman Professional Boston Group & other woman groups, Tech & SWE3 conferences speaker and participant or organiser.

Medicine, Pharmacy, Diplomatic volunteer work, Non profit, Technical studies, Microsoft & many Apple certifications, Microsoft certification program USA/Boston, Apple University USA, Malaga Tech University Spain, Cervantes University,

UMA University, Oxford & Cambridge school UK on exchange program during school years, LAAX academy in Switzerland, Italian Sport academy Milano Italy, Courses of design & fashion in Monaco, other side certification programs, OSHA USA, managment certifications, security certifications

Specifications

Further describe relevant experience, including crypto and governance participation, and/or ideas for DAO improvement

I participate as small shareholder in many companies, part of several DAO, some I helped to create a whitepaper , some businesses I helped to find and develop the company direction, some I helped to revamp. I have been in DEFI and even collected NFT art before coming back to Twitter & start at ETH projects. I'm an official developer as well as tested for many things: from testnets to devises to systems to hardware to games, including web3 games and it's L2 layers of they implement on. I am in many WEB3 new developments as a tester for free to help them shape their opportunities to all of us at different chains. I went to a lot of WEB3 developers events, less to purely NFT ones that go more about marketing, AI throw some make me very intrigued and I participated due to their development or DAO style opportunities or game/platform testing, product/documents/book writing, startup participation & as fundraiser sometimes.

Concluding Statement

Summarize your statement as to why you are the best choice for Special Council

Think about me as someone who don't afraid to be multifaceted, tried many things in life, gave opportunity and love helping others to find one, expand and shape businesses, love to provide support & changing people life by matching needs to the existing developments. Someone who knows how to run business, speaks many languages, has many certifications, survived struggles and don't use them as an entrance card versus using them to align with people who had one too. I love WEB3 and what it is already giving to people & how can I help yo develop with it and give even more. Exited for this opportunity , because any normal office job for me in most cases feels out of touch. It time to help people grow & help them with understanding what DAO can give them or teach.
