2023 was a pivotal year for BrokkR. We underwent a significant transformation, did multiple product iterations, and built the BrokkR's foundations. And the goal is clear now — Become the asset and liquidity supermanager.

TLDR;

1.

[Liquidity management

](/brokkR-v3-liquidity-management-strategies-fd232f97e1b6)— Adding Volatile pools, better strategies, leverage, and covering Arbitrum

2.

[Tokenomics changes

](/brokkR-new-tokenomics-b44c161d9347)— RealYield, Arbitrum migration, Incentives

1. Work on UniV4 —

We're close to being done with the [Uniswap Foundation grant](#) and will explore further UniV4 options

1. THORChain Integration

— Add Savers & Swaps, expand further based on what's possible
