

I have a issue that needs attention. I am surprised by the nature it entails and conclude it's fairly new. I want attention brought to delegate statement by kuso.eth. The topic puts us in the negative spotlight and I'm sure it's been overlooked. Please advise the delegate to amend the statement to align with our point of view. I feel these situations require attention. The impact of that topic puts negative light on the whole community. Thank you and stay Optimistic.
