

## Our Journey from Specialty Coffee to the ApeCoin Community

At Boring Brew, our story is one of passion, innovation, and community. Founded in 2022 and now a proud Metavesco brand, we set out to bring specialty coffee to the forefront, combining the finest coffee beans with the vibrant world of digital art.

### Quality Ape Beans

From the start, quality has been our priority. We source our coffee beans from over ten different countries, including Colombia, Brazil, Sumatra, and more. By working directly with small farmers, we ensure sustainable practices and top-quality beans. Specialty coffee is the highest grade available, offering the best aroma and taste. Our on-demand roasting process means each order is freshly roasted as soon as you place it, ensuring you get the freshest coffee possible.

### Each Bag Tells a Story

Boring Brew is about more than just coffee. We love how art can make everyday things more enjoyable. Our limited edition coffee bags feature eye-catching artwork from the BAYC, MAYC, and more collections. These bags have become collectors' items, with some designs now out of print. Each bag tells a story, creating a unique connection between the art and the coffee inside. Our bags have been displayed during Art Basel Miami and at massive events like Coachella.

### Building Community Through Collaboration

Our journey has been filled with incredible collaborations and events. Starting with BAYC #5502

and MAYC #21004

, our founder @Erod\_Eth

expanded our collection to include a wide range of Apes. In August 2022, we launched our first in-real-life Ape Coffee Tasting event in Miami, which was a huge success. These events allow us to connect directly with our community, sharing our love for specialty coffee and apes.

### Caffeine with ApeCoin

We're super excited to be part of the ApeCoin community and to have been selected for the Build By ApeCoin Accelerator (BBAC) Program by Thank Ape. This program gives us the resources and support to keep innovating and growing.

At Boring Brew, we're all about bringing the ApeCoin brand to a wider audience, including those who aren't typically involved in the Web3 space. We believe in the power of coffee and community to bridge gaps and create connections.
