

Hey there Arbitrum DevsCommunity!

I have exciting news for you from GetBlock!

[GetBlock.io](https://getblock.io) has just launched the Arbitrum Sepolia Testnet Faucet

.

We love to support web3 devs in various ways and contribute to the ecosystem's growth. That's why our users now can benefit not only from our top-notch RPC nodes services but also get some ETH testnet token on Arbitrum Sepolia and use them to test dApps and smart contracts for their innovative projects built on Arbitrum!

Get 0.1 ETH every day for free

with a faucet from GetBlock

: <https://getblock.io/faucet/arb-sepolia/>

We hope that our service will help you to enhance your amazing projects. That's why we really need your feedback and support too! Please tell us how you like our service, and spread the word about it across the web!

Let's grow together!
