

With the support of the Questbook program and our grant managers [@Manugotsuka @cattin](#)), we developed the Arbitrum Education Academy. Thanks to [@raam](#) for tips on increasing the academy's visibility. Our goal is to make learning about Arbitrum as accessible as possible, using a variety of information formats.

<https://arbitrum.education>

Please explore arbitrum.education and share your feedback.

For any changes, fixes, or concerns, feel free to message me on:

- Telegram: [@robinnagpal](#)
- Discord: [@robinnagpal](#)

We will continue to disseminate information about Arbitrum via the Academy Site across various channels and would greatly appreciate it if others could also share it.

Next Steps

While these initiatives are not covered by the grant, we are still keen to pursue the following:

1. Coordinate with other educational and onboarding programs such as the [Onboarding Working Group](#) ([@RikaGoldberg @krst](#)) and [Grants Ship](#) ([@UI369](#)).
2. Offer monthly educational sessions with a focus on high-level technical aspects for DAO members, centered on Arbitrum Products.
3. Improve the Academy to display all active programs (this feature is currently absent, but we believe it is crucial).

For any changes, fixes, or concerns, please reach out to me on Telegram ([@robinnagpal](#)

) or Discord ([@robinnagpal](#)

).
