

Title:

[TEMP CHECK] Enable Metis as Collateral on Metis Chain

Author:

Mummy

Date:

2024-01-22

Summary

Proposal to enable Metis to be used as collateral on aave v3, Metis Chain.

Metis is the native token of the chain, positioning aave in a strategic position for the future.

Motivation

Aave will be given a prominent role in the Metis ecosystem and will be able to establish a strategic presence as the main lending platform. Aave will be in good company as the ecosystem vault will launch with incentives for builders, more projects will launching on the network and Aave will only strengthen his position until then.

Specification:

The proposal suggests onboarding of an asset that already exists on Aave markets

Disclaimer:

The author of this ARFC, Mummy, is just a user of Aave and Metis Ecosystem and owns Metis tokens. However, Mummy is not paid by the Metis Ecosystem nor any other entity to submit this ARFC.
