

Meeting Info

- [15 June, 2023, 15:30 UTC](#)
- Duration: 90 minutes
- Recording: https://youtu.be/-sNIIISQF_ow
- Zoom: [Launch Meeting - Zoom](#)

Agenda

- 4844
- spec updates
- [Update getHeader and submitBlindedBlock to support blobs \(EIP-4844\) by jimmygchen · Pull Request #61 · ethereum/builder-specs · GitHub](#)
- [Update getHeader and submitBlindedBlock to support blobs \(EIP-4844\) by jimmygchen · Pull Request #61 · ethereum/builder-specs · GitHub](#)
- implementation updates
- discuss we want to keep an eye on latencies with blobs now
- some written updates from flashbots on 4844:
- for mev-boost it is actively being developed on this branch [GitHub - flashbots/mev-boost at develop-deneb](#) Still dependent on some type upgrades from go-boost-utils but that will be wrapped up soon.
- builder is still going through 1.12.0 rebase for the upgrade
- not updated on the relay yet

- relay performance updates from [@metachris](#)
- optimistic relay updates from [@justindrake](#)
- retro on PR #448

deploy [Redis: save ExecPayload in SSZ format \(requires update of both builder-API and proposer-API ⚠\) by metachris · Pull Request #448 · flashbots/mev-boost-relay · GitHub](#)

- open questions / proposals
- Update mev-boost to call getPayload on all

relays (instead of only those which sent the bid)? ([mev-boost issue#530](#))

- Proposer payment methods - allowing coinbase payments
- Blind bid selection with zero knowledge proofs
- change getPayload

to not return data to proposer

- relay funding
- move validator registrations to blob space?
