

ApeCoin DAO with 44 Special Council candidates to form 4-5 working groups with 6-7 individuals in each executive working groups and write AIPs with funding request.

I was glad to chat with Todd, and he has successfully formed the ApeComms Executive Working Group. I attended their twitter meeting yesterday, and ApeComms can definitely help out other executive groups in AIP process. ApeComms is very supportive and active for helping all ApeCoin community members.

I have read all the candidates profiles, and we have well diverse background of candidates with expertise knowledge in their fields including Accounting, Finance, Marketing, Operations Management, Strategic Planning, Communications, and DAO Governance!!

This proposal sounds like out of my MBA school final project 25 years ago. It is a great honor for me to be part of the ApeCoin community contributors, Ken
