

Maker Rebate Fees

For more information on our fee tiers, please see [Standard Fee Schedule](#) .

The below fee schedule details the rebates provided to Market Makers that have their orders filled by other users on the platform.

In order to ensure an order is a maker order, it will need the 'post only' flag. Otherwise even resting orders can match as a taker.

The current incentive program will be subject to change. All changes will be reflected in this schedule.

For non-btc/eth perpetuals:

Taker Maker Fee (flat Maker Fee regardless of Taker Fee) AMM -2bps User -2bps

[Market Maker Participation Backstop AMM Liquidity \(BAL\)](#)
