

Happy Birthday to ApeCoin !

In one year, you have already accomplished a lot...

Despite a lately unfavorable environment for cryptocurrencies, you are showing unfailing resistance.

I wish you the best future, count on me to try to accompany you as best as possible.

I will try more and more, to contribute at my level within the ApeCoin DAO and in particular through the Working Group Zero.

Finally, I dare not even imagine your future usefulness through OthersideMeta...

Happy birthday again !
