

AA93 invalid paymasterAndData

The first 20 bytes of the paymasterAndData field specify the address of the paymaster contract you are requesting to use.

The paymasterAndData field is of an incorrect length.

Possible solutions

- Make sure you have either not set a value for the paymasterAndData
- , or that it is at least 20 bytes long.
- If you are using a paymaster provider like Pimlico, [reach out to them](#)
- .
