

Hello guys.

We are already in the second month

of the Delegates Incentive Program. We are working a lot with your feedback in order to enhance the following iterations of the program.

If you opened [Snapshot

](<https://snapshot.org/#/arbitrumfoundation.eth>), you might have seen a lot of proposals. 77

to be exact. These are the applications of the [Long Term Incentive Pilot Program

](<https://forum.arbitrum.foundation/c/dao-grant-programs/long-term-incentives-pilot-program>). . This month will be a very busy one for delegates, so to avoid unnecessary spam we will NOT

consider the COMMUNICATION RATIONALE

and COMMENTING IN PROPOSALS

parameters for LTIPP

proposals.

We will consider ONLY

the SNAPSHOT

Votes.

With this measure we intend to avoid unnecessary spam in the forum. We also want to avoid delegates concentrating unnecessary efforts

in communicating 77

proposals, given that we consider that in this instance the delegates' vote is more of a priority than the rational communication.

If you have any feedback, please let us know!
