

AIP Name:

[AIP-251: ApeCoin DAO 101 - The Ultimate Guide For ApeCoin DAO Newcomers](#)

Implementation Status:

Pending

Author:

[@BojangleGuy](#)

Abstract Summary:

The DAO relies on two main systems that dictate and govern the entire DAO. Snapshot & Discourse. However, newcomers to the DAO may not be familiar with these systems, and the lack of instructional material available to them, such as video content, infographics, or live training, can lead to confusion, inactivity, and low participation (the ApeCoin DAO may be their first ever interaction with a DAO). This leaves new DAO members on their own to find their way around. This AIP aims to provide a central, easy to understand source of information for new members to use as a reference. Getting new members of the DAO up to speed and answering basic questions on day one will benefit the DAO across the board.

Overall Cost:

\$10,000
