

Hey everyone!

The link to join the governance call to discuss the proposal pipeline and notable discussions is on the [governance calendar](#).

Date: 9 April 2024

Time: 4:00 pm UTC

I've put together a fluid agenda below. For authors and/or key contributors of these proposals, it'd be helpful if you can include a tl;dr or an update of your proposal / discussion in the comments so delegates can review them and prepare their questions for the call.

For the proposals up for voting, these proposals have been covered in previous governance calls so we'll run through these relatively quickly to see if delegates have any questions. I'd imagine that most of the time for this call will be for ongoing notable discussions.

## Agenda
