

dzheng1887:

Is there any idea that the Live Era is close to the latest validation era of 961? Or is that just unlikely. The Live Era could be like 1050 right?

The validation set was released in September last year and hasn't changed. The id of the live era isn't published, but each week it moves on by one.

dzheng1887:

And the datasets (training, valid, some tournament except live) doesn't change between rounds right? So

Yes

dzheng1887:

301 is like 300?

Yes, 301 is the era that immediately followed 300.
